A Prompt assembly
label list
input text
B Shared prefix, scored once
prefix
KV cache
cache restored
after each label
label 1
label 2
label K
log p
log p
log p
C Distribution and free signals
margin
length-normalised
scores, softmax
over K labels
top probability
p(1)
margin
p(1) - p(2)
negative entropy
1 - H / log K
D Threshold under a retention floor
retention floor
routed frontier
random escalation
accuracy
cost
cheapest run that
clears the floor
threshold fitted
out of fold
